Introduction

The 15x Magnifier DXQ Basic and Pro is a Dutch design of Dexeq, one of the biggest suppliers of Document Examination Equipment suppliers of Europe. The 30 years of expertise and experience combined with the markets needs made Dexeq develop their own Magnifier, in partnership with one of the biggest manufacturers of Magnifiers worldwide.

The 15x Magnifier DXQ Basic and Pro is designed to serve the needs of its experienced users within Immigration and border Police. It comes with a 15x magnification lens of a size of 30mm, combined with different light sources.
